

PMX100 Pan Mixer

- heavy duty rotary paddle mixer
- three blade cluster, easily removed for cleaning
- uniform & consistent mixing
- bottom outlet for discharge into bucket or barrow
- for dry & bulk mixes
- easy to transport; low maintenance

The PMX 100 is a compact rotary paddle mixer designed to mix mortars and external colour through renders including R-Rend and Monocouch. It has a large capacity drum and three adjustable paddles, driven by a powerful electric motor through a reduction gearbox.

The mixer is fitted with an extra pair of wheels at the top of the machine so that it can easily be rolled into the back of a small van or estate car.

This mixer is powerful enough to mix heavy render, mortar and screed, including materials with aggregate up to 8mm.

Applications

- sand & cement renders
- colour through & polymer renders
- polymer screed & mortars
- backing coat plasters
- repair mortars

PMX 100

Speed	42 rev/min
Machine weight	80 kg
Size (W x L x H)	69 x 72 x 120 cm
Capacity	30 - 90 kg
Output	900 kg/hr
Noise level	71 dBA
Power	1.5 kw
Voltage	110 or 230 volt
Transformer (110 v)	5 kva, 32 amp plug
Generator	5 kw
